

CLASSIC

Scandinavian design is characterized by simplicity, minimalism and bright white. Nordic interior responds to the long winter and the short days with open spaces that take inspiration from nature to help create a cozy, yet bright ambiance.

Our classic update for this spring takes inspiration from the calm and balanced Nordic design. Decor should be uncomplicated and so is our Classic Collection, with new products named after beautiful Scandinavian cities.

Available from September 2020.

REYKJAVIK SOPHISTICATED MINIMALISM...

REYKJAVIK 6, 9.5 AND 12 CM
WITH VARIOUS GREEN PLANTS

Just like the significant Scandinavian cities, our pots stand out as classic and cool, yet at the same time, so full of warmth.

Each pot looks good on it's own with a long lasting and modern green plant.

However, when mixed and matched with other pots or vases from our Classic Collection, they all look their best and contribute to a personal and sophisticated look.

Now that's Nordic and cool.

PROOF OF CONCEPT

Soft shades of white and beige.

Shiny and unpolished ceramics.

Rattan, straw and other natural materials.

The look is delicate, feminine and Nordic, and this expression also characterizes BotanIQ Lab's Classic Collection, September 2020.
